## **NAPCRG** Practice-Based Research Network Conference

June 2-3, 2025 • Reston, Virginia

# WELCOME | PBRN 2025

Dear Colleagues,

Greetings! On behalf of the North American Primary Care Research Group, welcome to the 2025 Practice-Based Research Network (PBRN) Conference. Thank you to the Agency for Healthcare Research and Quality (AHRQ), which has supported this conference with a generous grant.

We are excited to see PBRN researchers, clinicians, and patients coming together to share ways to increase health care access. The PBRN Committee has produced an engaging agenda featuring PBRN innovations and research projects on diverse topics of interest. This conference remains a relatively small gathering, offering valuable opportunities for meaningful interaction and networking. Once again, we are offering poster walks to enhance your experience of the poster sessions—take advantage of this opportunity to connect and learn from your peers.

This year, we are pleased to highlight exciting PBRN research that exemplifies efforts to improve healthcare access. Conference presentations will also include a full range of issues related to practice-based research. This year's conference will cover:

- Access to Primary Care
- Behavioral Health
- Chronic Care Management
- Community, Patient, and Stakeholder-engaged Research
- Dissemination and Implementation
- Health Disparities and Equity
- PBRN Infrastructure, Network Operations, and Development
- Practice Facilitation and Quality Improvement
- Proposal Development, Study Design, and Analytic Methods
- Shared Decision-making and Collaborative Deliberation
- Technology and Data
- Training and Prevention

This conference is an opportunity to network with and learn from 100 PBRN affiliates from around the world. We hope that you find this conference engaging, inspiring, and enjoyable.

Please help us continue to improve the PBRN Conference by sharing your thoughts through your evaluations. Thank you for being an active part of the practice-based research community.

***Welcome to Reston and PBRN 2025!***

***Thank you, AHRQ!***

Funding for this conference was made possible [in part] by 1R13HS029438-03 from the Agency for Healthcare Research and Quality (AHRQ). **2:15pm - 2:30pm**

Closing Remarks

## Land Acknowledgement

NAPCRG acknowledges that Reston, Virginia, sits on the traditional and ancestral lands of the Piscataway, Tauxenent (Doeg), and Manahoac Peoples, who have stewarded this land for generations. We recognize their enduring relationship with this land and honor their past, present, and future contributions. We also acknowledge the Indigenous communities who continue to live in this region today and commit to learning from and supporting their ongoing efforts for recognition, sovereignty, and justice.

### ***Challenges and Innovations in Healthcare Access Panel: Promoting Research-Informed Policy***

In this session, we will share perspectives of non-governmental funders of healthcare access research that informs policy and practice. In this moderated panel discussion, each funder will describe their organization, its funding priorities and examples of research-informed innovations in healthcare access policy or practice. In the moderated discussion, audience members will ask questions and share comments with the panel and audience.

### *PBRN 360: Virginia Ambulatory Care Outcomes Research Network (ACORN)*

#### *Understanding Primary Care Access: How PBRNs Can Help Primary Care Practices and the Communities They Serve*

Even though primary care is the foundation of the healthcare system, there is an inadequate primary care workforce in the US. As a result, many people across many communities do not have a primary care home. At the same time, practices have long wait times making it difficult for clinicians to ensure continuity and access for existing patients. Primary care teams increasingly report high burnout, which is caused partially by increasing care demands. In response, policymakers are taking steps to support and build primary care, launching new payments and policies like the Advanced Primary Care model. In this session, we will review national efforts to build and support the primary care workforce and promote high-quality primary care. We will highlight work from the Virginia Ambulatory Care Outcomes Research Network (ACORN) to identify the primary care workforce, the people and communities receiving high-quality primary care and those with missed care opportunities, and the practice-reported challenges with professional turnover and recruitment. We will show how our practice-based research network is trying to guide state policymakers and health systems and provide support for practices and communities to improve care.

### *PBRN Research to Improve Healthcare Access*

In this plenary session, attendees will learn from top-rated research presentations that address the urgent and multifaceted issue of how PBRN research can improve patients' and communities' access to healthcare. These presentations demonstrate how PBRNs are leveraging real-world data, community engagement, and adaptive implementation strategies to reduce barriers and improve equitable access to care across a range of health conditions and populations.

**SP01: Comparing Long-Term Buprenorphine and Illicit Opioid Use by Home, Office, or Telehealth Induction;** Linda Zittleman, MSPH; Donald Nease, MD; Joseph LeMaster, MD, MPH, MPH; John Westfall, MD, MPH; Douglas Fernald, MA; Ben Sofie, MSW; Cory Lutgen, MHA; Camille Hochheimer, PhD; Elizabeth Bell, BS; David Wolff, MD

**SP05: Description of a Research Center in a Community Based Not for Profit Hospital System - 2.0;** Edward Bujold, MD, FAAFP, Chief Physician Strategist for KPN Health

**SP04: Increasing Implementation and Assessing Affordability of Continuous Glucose Monitoring in Primary Care;** Tristen Hall, PhD, MPH; Kristin Crispe, MPH; Tamara Oser, MD; Sean Oser, MD, CDE, MPH; Douglas Fernald, MA; Jessica Parascando, MPH; Kimberly Wiggins, MA, MEd; Perry Dickinson, MD; Chelsea Sobczak, MPH; Danika Buss, BA; Bonnie Jortberg, PhD, CDE, RD, CDE
