### **NAPCRG's Statement of Diversity**

NAPCRG is deeply committed to promoting diversity and inclusion among its membership. The NAPCRG Board of Directors aims to strengthen and ensure the manifestation of diversity and inclusion across the organization's diverse arenas, areas of focus, and programming. The Statement of Diversity's goal is to produce and maintain a culture that prioritizes inclusivity, belonging and social justice. Attendees must consent to having reviewed the NAPCRG Statement of Diversity:

We recognize current and historical inequities in research, including inequities in populations and among researchers themselves, that have resulted in disparities in health and well-being. We strive to create a research environment that amplifies the diverse voices of people and communities across all aspects of research, and particularly for those populations and Indigenous peoples who have been -- or continue to be underrepresented. We seek to promote the participation of a diverse membership in NAPCRG leadership, meetings and programs, research, employment and in all its other endeavors. We strive to include all, inclusive of sex, gender, sexual orientation, age, race, religion, disability, ancestry or national origin; and to promote non-violent, rational idea exchange. We commit ourselves to promote primary care research scholarship nationally and internationally.
